

## SECTION 1442 EXTRACTION, SOIL, REMOVAL AND MINING OPERATIONS

Extraction, soil removal and mining operations may be permitted in certain districts, as specified in this ordinance, subject to the following:

- A. The Planning Commission shall review the request for special land use approval in conformance with Section 1401 - special Land Use Procedures and Review Standards. In furtherance of this requirement, the applicant shall submit:
  - 1. A narrative description of the nature and scope of the proposed extraction operations referenced to the requirements of Section 1401.
  - 2. Reclamation plans for the site.
- B. Grant of a special land use approval and permit by the Planning Commission does not authorize the applicant to proceed with development of the site and commencement of mining activities. Should the Planning Commission grant special land use approval, the applicant shall proceed with application for a license to operate under the Township's mineral extraction ordinance.
